## TASK 1 – Recruitment & Job Description

### Introduction

Recruitment is one of the most critical functions of Human Resource Management because it directly impacts organizational productivity, employee culture, and long-term growth. A well-designed Job Description (JD) helps organizations attract qualified candidates by clearly defining responsibilities, required skills, reporting structures, and performance expectations.

This task includes two professional and industry-focused Job Descriptions:

1. Software Developer
2. Human Resource Executive

Both descriptions are prepared according to modern HR recruitment standards and include detailed role expectations, qualifications, technical competencies, and performance requirements.

---

## Job Description 1 – Software Developer

### Job Title

Software Developer

### Department

Information Technology (IT)

### Job Type

Full-Time

## **Location**

Hybrid / Remote

## **Reports To**

Technical Project Manager

## **Job Summary**

The Software Developer will be responsible for designing, developing, testing, and maintaining scalable software solutions that support organizational operations and customer requirements. The ideal candidate should possess strong analytical skills, problem-solving capabilities, and hands-on programming experience.

The candidate must collaborate effectively with UI/UX designers, database administrators, quality assurance teams, and project managers to ensure the successful delivery of software products.

## **Key Responsibilities**

- Design and develop efficient, reusable, and reliable code.
- Participate in software requirement analysis and system design.
- Develop front-end and back-end application components.
- Perform debugging, testing, and troubleshooting of applications.
- Collaborate with cross-functional teams during the software development lifecycle.
- Optimize application performance and scalability.
- Ensure software security and data protection standards.
- Maintain technical documentation and version control.
- Conduct software updates and maintenance activities.
- Participate in Agile/Scrum meetings and sprint planning.

## **Required Qualifications**

- Bachelor's degree in Computer Science, Software Engineering, or related field.
- Strong understanding of programming fundamentals.
- Knowledge of database management systems.
- Familiarity with software development methodologies.
- Understanding of APIs, web technologies, and cloud-based systems.

## **Technical Skills**

- Programming Languages: Python, Java, JavaScript, or C++
- Database Systems: MySQL, PostgreSQL, MongoDB
- Front-End Technologies: HTML, CSS, React.js
- Back-End Frameworks: Node.js, Django, Flask
- Version Control: Git and GitHub
- Basic understanding of DevOps and CI/CD pipelines

## Soft Skills

- Communication and teamwork
- Critical thinking
- Time management
- Problem-solving ability
- Adaptability and continuous learning mindset

## Experience Requirements

- Fresh graduates or candidates with 1–2 years of experience are encouraged to apply.
- Internship or portfolio projects will be considered an advantage.

## Key Performance Indicators (KPIs)

- Code quality and efficiency
- Timely completion of assigned tasks
- Bug resolution rate
- Team collaboration effectiveness
- Software performance optimization

## Salary Range

Competitive salary package according to market standards.

## Benefits

- Health insurance
  - Paid leaves
  - Flexible work environment
  - Learning and development opportunities
  - Performance-based bonuses
-

# **Job Description 2 – Human Resource Executive**

## **Job Title**

Human Resource Executive

## **Department**

Human Resources (HR)

## **Job Type**

Full-Time

## **Location**

On-Site / Hybrid

## **Reports To**

HR Manager

## **Job Summary**

The Human Resource Executive will support organizational HR operations including recruitment, onboarding, employee engagement, policy implementation, attendance management, and employee relations. The role requires excellent communication skills and a strong understanding of modern HR practices.

The candidate will act as a bridge between management and employees to maintain a healthy workplace culture and ensure smooth HR operations.

## **Key Responsibilities**

- Assist in recruitment and interview coordination.
- Prepare and post job advertisements.
- Screen resumes and shortlist candidates.
- Conduct onboarding and orientation sessions.
- Maintain employee records and HR documentation.
- Support payroll and attendance processes.

- Handle employee queries and workplace concerns.
- Organize training and employee engagement activities.
- Ensure compliance with HR policies and labor regulations.
- Assist in performance management procedures.

## **Required Qualifications**

- Bachelor's degree in Human Resource Management, Business Administration, or related field.
- Understanding of HR operations and organizational behavior.
- Basic knowledge of labor laws and recruitment practices.

## **Technical Skills**

- MS Office Suite
- HRMS software basics
- Recruitment platforms and job portals
- Data handling and reporting
- Documentation management

## **Soft Skills**

- Interpersonal communication
- Leadership qualities
- Conflict resolution
- Confidentiality handling
- Organizational skills
- Emotional intelligence

## **Experience Requirements**

- Fresh graduates or candidates with internship experience in HR are preferred.
- Experience in recruitment or employee management is a plus.

## **Key Performance Indicators (KPIs)**

- Recruitment efficiency
- Employee satisfaction level
- HR documentation accuracy
- Timely onboarding completion
- Attendance and compliance management

## **Salary Range**

Market-competitive salary package.

## **Benefits**

- Paid training sessions
  - Career development support
  - Professional work environment
  - Employee wellness programs
  - Performance incentives
- 

## **Conclusion:**

The above Job Descriptions are designed according to professional HR standards and provide clear guidance regarding job expectations, qualifications, skills, and responsibilities. Effective recruitment documentation improves hiring quality, organizational productivity, and employee-role alignment.
